- 1.20 CONTRACTOR SAFETY PERSONNEL REQUIREMENTS**

PART 2 PRODUCTS (NOT APPLICABLE)

PART 3 EXECUTION (NOT APPLICABLE)

1.17.2 PERMITS.

1.17.2.1 The Contractor shall submit a Digging Permit Request for each work area. The Digging Permit Request shall be submitted to the Chief of Contract Management Division, Directorate of Installation Support Building 22216. The request shall include five complete sets of the Digging Permit with drawings, sketches etc. as required to describe the work requirements. Contract Management Division normally approves the Digging Permit within 15 working days. Contract Management Division assigns a control number to each request for tracking purposes. Status of Digging Permits is available by calling 533-1442.

1.17.2.2 Each Digging Permit will be assigned an expiration date, normally 15 to 30 days from the approval date. If markings are on a permanent surface such as concrete or asphalt, a 30-day permit may be issued. If there are non-permanent surfaces such as dirt, gravel, or grass, a fifteen-day permit will be issued. If work requirements exceed the expiration date, periodic clearance renewal must be obtained. For clearance renewal, notify the Contract Management Division. It is the Contractor's responsibility to obtain a valid Digging Permit and keep it updated. Clearance renewal requires 10 working days. The Contractor shall pothole underground lines. The underground utility may be five feet either side of the designated location. If the Contractor cannot locate the line, coordinate with the inspector to have a recall clearance.

1.18 PUBLIC UTILITY COMPANIES: Arizona Blue Stake Laws govern digging clearance requirements for all public utilities such as US West, Southwest Gas, Sulphur Springs Valley Electric, or Tucson Electric Power. If there are public utilities in the area, the words "Blue Staking Required" will be written on the form. The Government will provide the point of contact for Blue Staking and contractor requirements, responsibilities and liabilities with the originally approved request.

1.19 UTILITY OUTAGES AND ROAD CUTTING: The Contractor shall provide a written request for utility outages or road cutting to the Construction Inspection Branch ten working days in advance for approval. All outages and road cutting shall be programmed to occur at the convenience of the Government.

1.19.1 It shall be the responsibility of the Contractor to obtain all permits/licenses for this project, to include notification to the Arizona Department of Environmental Quality of any start date or schedule changes for any hazardous materials, at no additional cost to the Government.

1.20 CONTRACTOR SAFETY PERSONNEL REQUIREMENTS (1985 JAN HQ USACE)

(A) Full-time, on-site, safety coverage by contractors shall be required for the life of the contract.

(B) The following conditions shall be met:

(1) The Contractor shall employ, to cover all hours of work at the project site(s), at least one safety and health person to manage the Contractor's safety program; duties which are not germane to the safety program shall not be assigned to this person(s). The principal safety and health person shall report to and work directly for the Contractor's top on-site manager, corporate safety office, or other high-level official of equivalent position. The safety and health person(s) shall have the authority to take immediate steps to correct unsafe or unhealthful conditions. The

employment of a safety and health person(s) shall not abrogate the safety and health responsibilities of other personnel.

(2) *Qualifications for Safety and Health Person(s).*

(a) *Safety and Health Person(s) shall have a degree in engineering or safety in at least a four year program from an accredited school and shall have been engaged in safety and occupational health for at least one (1) year of experience (no time being credited to this one (1) year unless at least fifty (50) percent of the time was devoted to safety and occupational health) and shall have at least one (1) year experience in construction, or--*

(b) *Safety and Health Person(s) shall have legal registration as a Professional Engineer or a Certified Safety Professional and shall have been engaged in safety and occupational health for at least one (1) year of experience (no time being credited to this one (1) year unless at least fifty (50) percent of the time was devoted to safety and occupational health) and shall have at least one (1) year experience in construction, or--*

(c) *Safety and Health Person(s) shall have a degree other than that specified in paragraph, Qualifications for Safety and Health Person(s) above, and shall have been engaged in safety and occupational health for at least three (3) years of experience (no time being credited to these three (3) years unless at least fifty (50) percent of the time each year was devoted to safety and occupational health) and shall have at least two (2) years experience in construction, or--*

(d) *In lieu of a degree, Safety and Health person(s) shall have been engaged in safety and occupational health for at least five (5) years of experience (no time being credited to these five (5) years unless at least fifty (50) percent of the time each year was devoted to safety and occupational health) and shall have at least two (2) years experience in construction.*

(e) *First aid work is not a creditable experience.*

(3) *The name and qualifications of the nominated safety and health person(s) shall be furnished to the Contracting Officer for acceptability and a functional description of duties shall be provided prior to the pre-work conference.*

NOTE: The Contractor shall have one or more Safety and Health Persons, each of whom meets the qualifications of (B)(2) Qualifications for Safety and Health Person(s), physically present on the actual site of the work whenever work of any sort is being performed by a Contractor, subcontractor, or supplier personnel on the work site. The foregoing clause language shall not be interpreted to contravene this note.
