Indefinite Delivery/Indefinite Quantity Contracts for Asphalt and Concrete  
**Title:** Repairs and Improvements at Military Installations and Civil Projects Sites  
and for Other Corps of Engineers Customers

**Issue Date:** 07-Jun-99

**Due Date:** 07-Jul-99

**Price Range:** HD-\$500,000-\$29,700,000 and SC-\$270,000-13,500,000

**Technical POC's:** Barbara Moore (Southern California) (909) 655-2101  
Robert Doran (High Desert) (805) 945-8879  
**Contracting POC:** [Maria Cisneros](#) (213) 452-3242

### Synopsis

This procurement consists of one solicitation with the intent of awarding two Indefinite Delivery Indefinite Quantity (IDIQ) Contracts for Asphalt and Concrete Repairs and Improvement at Military Installations and Civil Project Sites and for Other Corps of Engineer Customers. One contract for \$29,700,000 will be UNRESTRICTED and open to all offerors and the other contract for \$13,500,000 will be RESTRICTED to Small Business Concerns as a Small Business Set-Aside (SBSA). Offerors will be required to submit a technical proposal with a separate price proposal. In addition, large businesses will also be required to submit a Subcontracting Plan. The Government will award up to a maximum of two contracts resulting from this solicitation to the responsible offerors whose proposals, conforming to the solicitation will be the "Best Value" to the Government using a "TRADE-OFF" process, price and technical factors considered. The significant evaluation factors, which may be used for the evaluation of the technical proposals, are: Past Performance, Management Ability, and Scheduling. These factors are not all inclusive. The Contracting Officer may award based on initial offers received, without discussions of such offers. The award may be made to the superior offer which may not be the lowest offered price, but which is more technically advantageous than the lowest priced offer so as to justify payment of a higher price. The performance period for these IDIQ contracts will be for a one 12-month base period plus two 12-month option periods or until the maximum contract not-to-exceed amount of \$29,700,000 for the UNRESTRICTED contract and \$13,500,000 for the SBSA contract is awarded. The total performance period of these IDIQ contracts will not exceed thirty-six months from date of award. The contractor receiving contract award for the \$29,700,000 contract will be legally bound by the minimum guaranteed amount of \$500,000 for the base period and 1% of the remaining funds up to the maximum limit or \$250,000 for each option period, which ever is lower if the option periods are exercised. For the \$13,500,000 contract, the contractor receiving contract award will be legally bound by the minimum guaranteed amount of \$270,000 for the base period and 1% of the remaining funds up to the maximum limit for each option period if the options are exercised. The work will include asphalt and concrete repairs and improvement at military installations and for other Corps of Engineer customers in the South Pacific Division, but primarily in the High Desert Area for the \$29,700,000 contract and Southern California for the \$13,500,000 contract. The boundaries for the High Desert Area for military projects are from the north side of the San Luis Obispo, Kern, and Inyo Counties south to a line that runs roughly between Ventura in the west and Havasu Lake on the California-Arizona border in the east. The High Desert Area for civil projects has the same southern boundary but the northern boundary runs roughly from Gorda on the Pacific Coast inland to the intersection of Ventura, Kern and Los Angeles Counties then among the east side of the Sequoia National Forest and Park, the Kings Canyon and Yosemite National Parks and finally to the Nevada border. The Southern California Area for both military and civil projects includes all the area in California south of the High Desert Area's southern boundary which runs roughly from Ventura to Hauasu Lake on the California-Arizona border. The Standard Industrial Classification (SIC) Code is 1611, Heavy Construction, N.E.C., \$17,000,000 average gross revenues for the last (3) three fiscal years. Large Businesses will be required to submit a Subcontracting Plan, which will set forth small, disadvantaged and women-owned business concerns subcontracting goals that are acceptable to the Government. The Los Angeles District subcontracting goals are specific percentages of the contractor's total planned subcontract amount. The goals are as follows: 62% with small business; 10% with small disadvantaged business, and 5% with women-owned business.

## Solicitation Printing

This list is open for registration to all **printing companies** who have the following minimum capabilities: (1) the capability to produce a hard copy of the plans (up to 28" X 40") and specifications (8 1/2" X 11") for all solicitations that are offered on the Internet and Compact Disk (CD). (2) this capability may include both downloading and reproduction from the CD, or just the ability to reproduce the files from the CD.

To add, remove or change a **printing company** listing send e-mail to [arredoe@wes.army.mil](mailto:arredoe@wes.army.mil)

### Disclaimer:

The Government in no way supports or recommends these printing companies as capable of printing or downloading ".pdf" (Specification) or ".cal" (Plan) files. Additionally, the Government is not responsible for the accuracy or quality provided by these printing companies. This list is provided only to indicate that there are sources capable of providing hard copies from the media on which the Government issues its plans and specifications. If a potential bidder/proposer does not have the capability to reproduce a hard copy of the plans and specifications internally, then that business may want to explore at his own risk, the options that exist with these companies.
